About SALLY

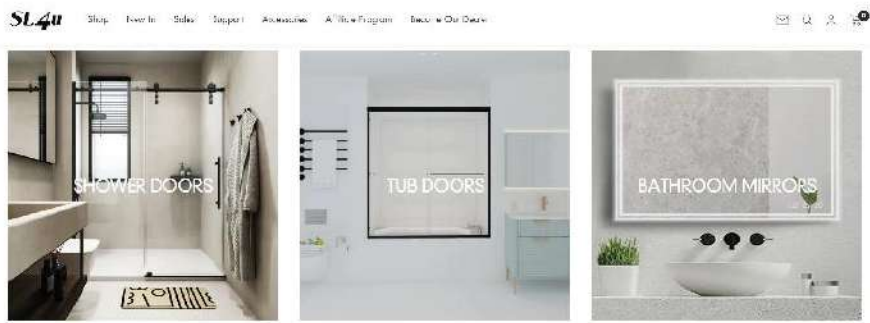

In 1998, Mr. Liu Fengxiang quit his job in a state-owned enterprise and entered the field of shower room manufacturing. From the first day of starting the business, he decided to let high-quality sanitary products enter thousands of households and become a must-have for ordinary people's homes.

The shower room is an industrial product that combines mechanics and aesthetics. Every smooth operation, every technological innovation, every line design, every new material application is the detail that Mr. Liu Fengxiang and all the company employees pay attention to. SALLY's story stems from the persistence of focusing on doing every shower room.

E-Commerce and Overseas Distribution

The founder Mr. Steven and his friends co-founded the brand SL4U, hoping to provide more families with modern sophisticated bathrooms. SL4U online E-Commerce websites for shopping high-quality Shower Doors, Shower Enclosures, Tub Doors and Bathroom Mirrors:

REWARD PROGRAM

20 million+ families worldwide choice

Our clients' range from world famous brand sales agencies, large distributors, huge project leaders, reliable importers in more than 60 countries and regions of Europe, America, Africa, and Southeast Asia. Our oversea branches in America, UK, Germany etc have their own warehouse which can assist client for after-sales service efficiently as well.

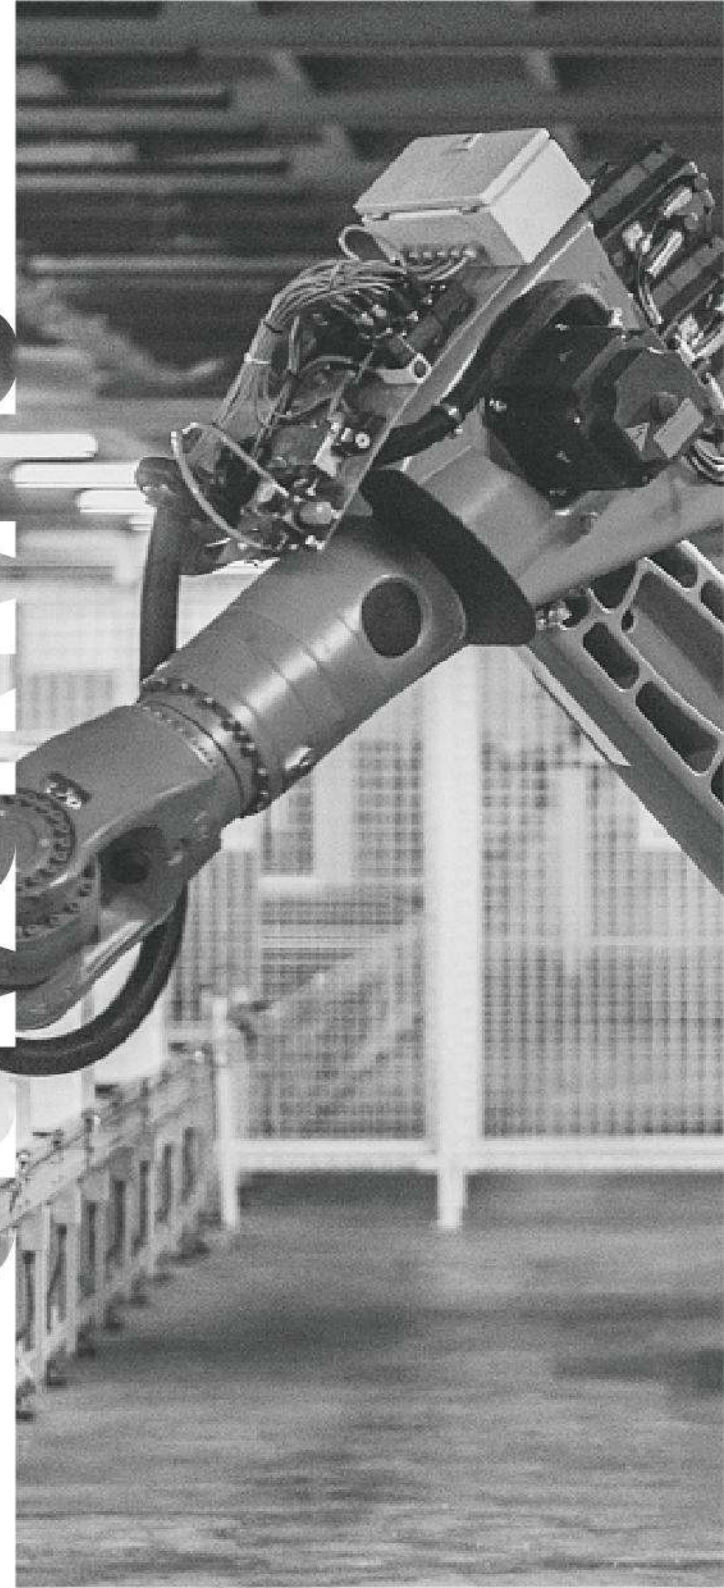

Why Choose SALLY

Self-built high-standard laboratory, can complete the test of all products in-house.

The company has passed ISO9001/ISO14001/ISO45001/Sedex system certification, and all products have CE, CUPC, UL, SGCC and other certifications

QUALITY STANDARD

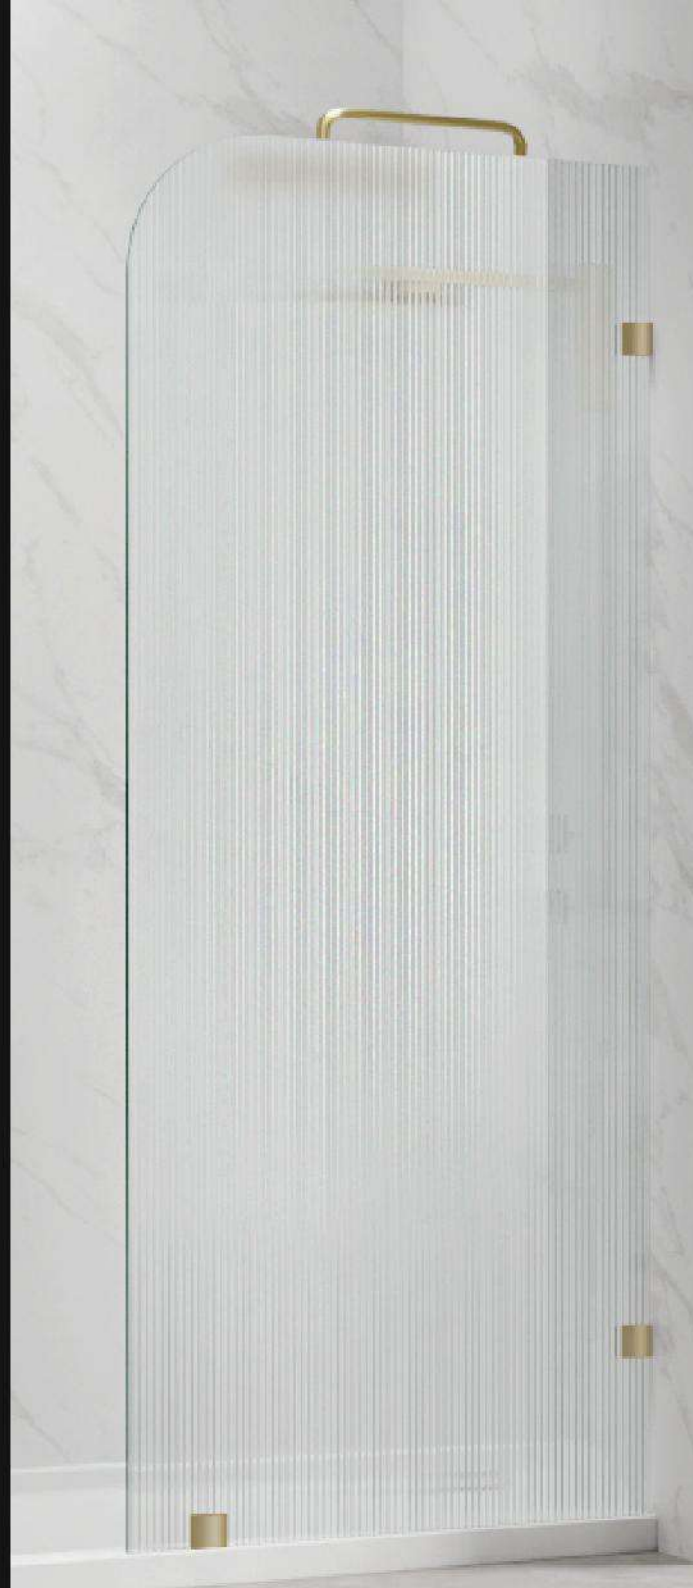

Innovation Design

Advanced tempering technology.

Pursue reasonableness, exquisiteness, minimalism, ergonomics in the design style, optimize the use of the product from the details, and enhance the practicality and comfort.

The bathroom is not only a practical-space, but also a place to relax after a day of work.

Products Features

- ▶ Advanced tempering technology.
- ▶ Easy-clean coating on glass.
- ▶ Dust-proof track design.
- ▶ Silent pulley drive system.
- ▶ Buffer anti-collision technology.
