About SALLY

Sally Technology Co., Ltd., founded in 1999 by Mr.Liu fengxiang, is a company that adheres to the spirit of ingenuity. Since its inception, it has always been committed to providing consumers with the best quality shower experience. With its excellent business capabilities and commitment to social responsibility, Sally Technology has gradually developed into a leader in the domestic shower room industry. The ingenuity of Sally Technology is reflected in every detail. The designer team creates each product carefully, pays attention to every detail, and strives to bring consumers more comfortable, safe and elegant shower room products. In addition to striving for product excellence, Sally Technology also actively fulfills its social responsibilities. It supports the cause of green environmental protection with practical actions and integrates environmental protection concepts into its products by improving production processes and using environmentally friendly materials.

In the future, Sally Technology will continue to uphold the spirit of ingenuity, exert its strong operating capabilities, actively fulfill its social responsibilities, bring better quality shower room products to global consumers, and add more luster to China's sanitary ware industry.

Automated production workshop

Current production capacity of shower rooms and panoramic doors

91,700 sets per month

Each production line

7,051 units per month

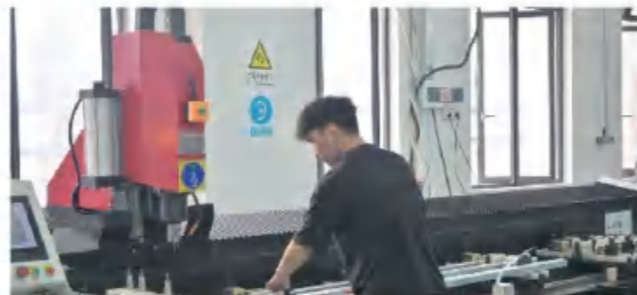

Intelligent production, standardized inspection, to ensure stable quality

Raw material storage silo

Machining Automatic Line 1

Machining Automatic Line 2

Automatic film application line

packaging line

Finished product storage warehouse

The current production capacity of prefabricated kitchens and bathrooms

2,000 sets per month

Each production line

500 sets per month

Using fully automated production equipment, the product process is set by computer programs, resulting in stable quality and no construction variations.

Industrial robot (automatic tile placement)

Automatic gluing equipment

Fully automatic profile cold bending forming equipment

CNC four-axis water jet cutting equipment

Chassis production line

20 million+ families worldwide choice

Our clients' range from world famous brand sales agencies, large distributors, huge project leaders, reliable importers in more than 30 countries and regions of Europe, America, Africa, and Southeast Asia. Our oversea branches in America, UK, Germany etc have their own warehouse which can assist client for after-sales service efficiently as well.

Why Choose SALLY

Self-built high-standard laboratory, can complete the test of all products in-house.

The company has passed ISO9001/ISO14001/ISO45001/Sedex system certification, and all products have CE, CUPC, UL, SGCC and other certifications

Sales Channels

International Sales Network

Spring & Light Green

This bathroom design embraces a refreshing spring-inspired French style, celebrating the rejuvenating energy of the season. The soft green tones evoke the vibrant hues of new foliage, creating a serene and invigorating atmosphere. Delicate details, like ornate moldings and vintage-inspired fixtures, add a touch of French elegance, seamlessly blending charm with contemporary functionality. The design reflects the designer's admiration for the vitality of spring and a deep appreciation for the aesthetics of everyday living, offering a tranquil yet uplifting space to start and end each day.

Summer & Sunny Beach

This bathroom design embodies the vibrant spirit of a sun-drenched beach paradise. With a luxurious bathtub positioned beneath a transparent skylight, sunlight pours in, creating a warm and inviting glow that fills the room. Palm leaves sway gently in the breeze, adding a tropical touch that transports you to a serene coastal escape. The design captures the designer's passion for a bold, carefree lifestyle, where the energy of the sun and the beauty of nature come together to inspire freedom, relaxation, and an unabashed celebration of life. This space invites you to unwind in the sun's embrace and immerse yourself in the vivid colors of summer.

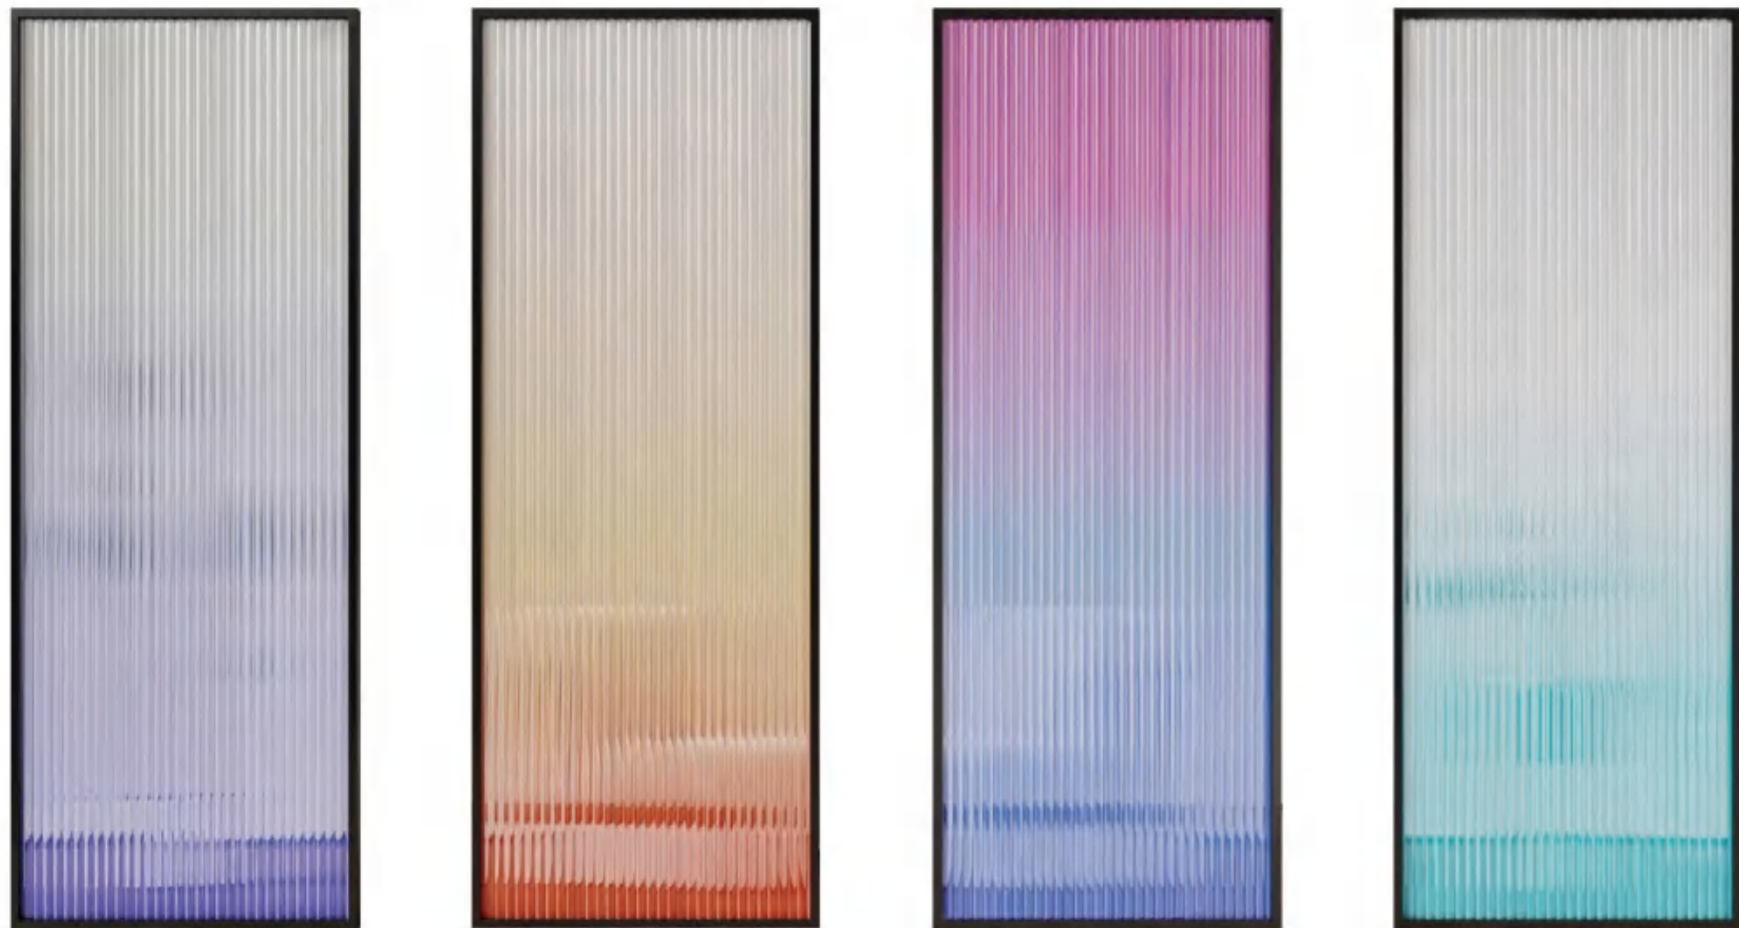

Autumn & Quiet Deep

This bathroom design features the subtle elegance of micro-cement, creating a serene and contemporary backdrop. The space is elevated by a striking gradient glass partition that adds a touch of artistic flair, while the marble bathtub brings a sense of luxury and timelessness. The overall atmosphere evokes the quiet beauty of autumn, with its rich and warm colors reflecting the season's tranquil yet vibrant essence. The design embodies a perfect balance of minimalist sophistication and dynamic hues, capturing the essence of fall's quietude and the richness of its ever-changing palette. This space invites you to relax and unwind in an environment that feels both peaceful and inspiring.

Winter & Warm Wood

This bathroom design features a soft, creamy wood aesthetic that brings a warm, inviting touch to the space. The natural wood bathroom vanity enhances the tactile experience, creating a sense of coziness and comfort that makes even the coldest winter days feel warm and welcoming. The gentle, neutral tones of the wood contrast beautifully with the crisp white snow visible through the window, offering a serene and harmonious balance between nature's cold beauty and the warmth within. This design is a perfect escape from winter's chill, turning the bathroom into a peaceful retreat that embraces both warmth and simplicity.

Gradient Colored Glass

Gradient colors make the bathroom space more colorful, while ensuring a certain degree of transparency, making the design more interesting.

Arched Glass

The arched glass partition with a black grid pattern brings an industrial edge to the bathroom. The sleek, geometric design creates a bold contrast, combining the soft curves of the arch with the sharp lines of the grid for a striking, modern look. The industrial style adds character and sophistication, making this partition a unique and stylish feature that enhances both privacy and the overall design of the space.

PANORAMIC DOOR SERIES

QJ54P2

FRAME:
ALUMINUM

GLASS:
8mm Clear glass or customize

FRAME FINISH
MATT BLACK/BRUSHED GREY

SIZE RANGE:
W:1500*H:2100
or customize size

FEATURES:

1. BOTTOM-TRACKLESS DESIGN WITH ANTI-SWAY ROLLERS ENSURES NO WOBBLING AND SMOOTH PASSAGE.
2. SOFT-CLOSING SYSTEM.
3. UNOBSTRUCTED INTERIOR VIEW.

QJ48P1

FRAME:
ALUMINUM

GLASS:
8mm Satin glass or customize

FRAME FINISH
MATT BLACK/GUNMETAL

SIZE RANGE:
W:850MM*H:2185MM
OR CUSTOMIZE SIZE

FEATURES:

1. HIDDEN HINGES OFFER BETTER MOISTURE RESISTANCE.
2. INTEGRATED MAGNETIC LOCK WITH ANTI-LOCKOUT FEATURE.
3. OIL-RUBBED GLASS WITH A PREMIUM TEXTURE.

QJ09P4

FRAME:
ALUMINUM

GLASS:
8mm

FRAME FINISH
MATT BLACK/GUNMETAL

SIZE RANGE:
THREE DOORS W 1650-2500 (mm)
FOUR DOORS W 2200-3600 (mm)
